MEMORANDUM

TO: All Retail Liquor Store Managers and Agents

From: Paul Martello, Bureau Chief
Purchasing and Distribution

Subject: Retail Price List Classification
Effective August 1, 1989

Attached is the Liquor Division's numerical retail price list to become effective August 1, 1989. This price list covers the months of August, September and October 1989. The notations under the status column signify: + or −, new price; "CO" — closeout; "T" — test market; "V" — variable supply; "C" — collectible; "W" — warehouse supply; and "S" — seasonal. Changes to retail selling prices published in this price list result from:

1. Adjustments to freight charges from suppliers to the Helena warehouse to reflect as closely as possible actual freight paid on each product; and

2. any adjustments by vendors to the F.O.B. case prices of products carried by the division.

In addition to "regular" and "test market" products regularly stocked in most state liquor stores and agencies, new administrative rules now allow you to have access to slower selling products as described below:

"**Variable supply**" products will be so designated, will have supply maintained in the warehouse on a limited basis with no commitment to a minimum service level, and will be eligible for no more than one facing on selected state liquor shelves depending on demand for the product in a selected store and alcoholic beverage code distribution limitations for table wine.

"**Special order**" products will not be published in this price list nor have supply maintained in the warehouse but will be available on an order-by-order basis. This type of product will only be sold by the case as arranged in the special order and will not be placed on any state liquor store shelves.

"**Warehouse supply**" products will be so designated, will have supply maintained in the warehouse to satisfy approximately 12 single bottle requests per month with no commitment to a minimum service level, and *will not be placed on any state liquor store shelves* but will only be sold through the state liquor store as specified on the store order form.

"**Seasonal**" products will not be published in this price list,

but will be noticed in a supplemental requisition for merchandise, will not have supply maintained in the warehouse but will have orders distributed to state liquor stores to meet estimated seasonal demand, and will be eligible for shelf and/or floor display in state liquor stores depending on expected demand for the product in a store.

"**Promotional**" products will not be published in this price list, but will be noticed in a supplemental requisition for merchandise, will not have supply maintained in the warehouse but will only be received and shipped in the quantity approved for the promotion, and will be eligible for shelf and/or floor display in state liquor stores in the quantity and for the period approved for the promotion.

"**Collectible**" products will be so designated, will be purchased for limited distribution in less-than-full-case quantities to provide access to collectors based upon past sales histories of similarly designated collectibles with no commitment to a minimum service level, and will be eligible for shelf display in state liquor stores depending on expected demand for the product in a store.

STATE PRICING FORMULA

42.11.104 **RETAIL SELLING PRICE** (1) The retail selling price of liquor, other than fortified wine, as defined in 16-1-106 (11), MCA, is determined by adding:

(a) the department's base case cost; and

(b) the state markup of 40% on the department's base case cost.

(2) The retail selling price of fortified wine containing more than 16% but no greater than 24% alcohol by volume is determined by adding:

(a) the department's base case cost; and

(b) the state markup for fortified wine bottled in the following sizes:

(i) 1.50 liter is marked up at 42% on the department's base case cost plus 27 cents per bottle;

(ii) .750 liter is marked up at 51% on the department's base case cost plus 12 cents per bottle;

(iii) .375 liter is marked up at 59% on the department's base case cost plus two cents per bottle;

(c) Fortified wine bottled as .720 liter is marked up the same as .750 liter.

(3) The retail selling price of table wine as defined in 16-1-106(22), MCA, containing not less than 0.5% or more than 16% alcohol by volume is determined by adding:

(a) The department's base case cost; and

(b) the state markup for table wine bottled in the following sizes;

(i) 1.50 liter and larger sizes are marked up at 41% on the department's base case cost plus 68 cents per bottle;

(ii) 1.00 liter is marked up at 58% on the department's base case cost plus 25 cents per bottle;

(iii) .750 liter and smaller sizes are marked up at 49% on the department's base case cost plus 49 cents per bottle.

(c) The selling price of table wine that results from adding subsections (a) and (b) is rounded up to the nickel.

(4) For liquor and fortified wine, "base case cost" means the supplier's quoted price plus freight charges from the supplier to the state warehouse and the average freight to all state liquor facilities. For table wine, "base case cost" means the statewide weighted average cost, which is the supplier's quoted price plus freight charges from the supplier to the state warehouse and the average freight to all state liquor facilities, and applicable taxes as provided in Title 16, Chapter 1, part 4, MCA.

(5) For liquor and fortified wine, the cost to the retail purchaser is the retail selling price plus applicable state taxes as provided in Title 16, chapter 1, part 4, MCA, the total of which is rounded up to the nickel. For table wine, the cost to the retail purchaser is the retail selling price as provided in subsection (3).

(6) The department may reduce the retail selling price of products which the department has designated for closeout or are determined to be overstocked in order to encourage their purchase and elimination from the state inventory.

Closeout products are those that the department has removed from its published listing of classes, varieties, and brands of liquor and table wine to be kept for sale at any state liquor facility. Overstocked products are those classes, varieties, and brands of liquor and table wine which are in the state's inventory in an amount greater than would be sold in a 12-month period.

Note: *N means New Listing*
+ or − means increase or decrease in price

The formula for figuring per ounce cost is as follows:
Retail cost divided by size divided by 33.8 = cost per ounce. You must set your decimal over six digits!
Example: $8.50 divided by .750 = 11.333333 divided by 33.8 = .335306 or .335 cost per ounce.

Prices are subject to change without notice.
